

BA Acting Programme Costs

Undergraduate Programmes within the School of Drama, Dance, Production and Film have a range of associated costs related to the specific activities required and advised by the programme team.

In order to ensure fairness and parity of experience in relation to certain core programme activities a one-off payment to cover a proportion of necessary costs is required of the student at matriculation.

Please see the table below which details additional costs to assist with budgeting. Third year can be a particular costly time. You will need to budget for headshots, Spotlight membership, travel and accommodation for showcase and possible meetings in London with agents, casting directors and producers.
