E-Resource Platforms Accessibility

In the table below you can find accessibility statements for online resources that The Royal Conservatoire of Scotland subscribes to. This includes any databases, e-journals and e-book platforms. Some suppliers also have a Voluntary Product Accessibility Template (VPAT), which is a self-evaluation of how accessible their product is. Where this is publicly available it has also been included. If the publisher works with RNIB Bookshare that is also included but please not that not all content will be available on their site.

Databases:

Platform	Link to Accessibility Statement	VPAT (Voluntary Product Accessibility Template) Notice or Further Information	Works with RNIB Bookshare
